# APPENDIX A

TABLE OF CONTENTS

APPENDIX A

INTRODUCTION

TABLES FROM THE ANNUAL REPORT OF THE WESTERN-SAN  
BERNARDINO WATERMASTER

## INTRODUCTION

The Annual Report of the Western-San Bernardino Watermaster for calendar year 2012 dated September 6, 2013 included modification of most of the tables in the summary report. Further modifications were made in preparation of the April 1, 2014 Annual Report. Many of the modifications resulted in changes in logic as well as the specific data commencing in calendar year 1971 and continuing through the current calendar year.

The Judgment requires the Watermaster to report compliance based on calculations for the current year and the five year period ending with the current year. As a result, some tables in the Annual Report show data only for the last five years. A few show data for all years commencing in 1971.

Since many of the modifications changed calculations all the way back to 1971 and some tables in the report only show the last five years, these appendices have been developed primarily to show all the revised historic calculations in any table that has been either modified or is affected by modification of another table. For any such table included in these appendices, the data is shown for the entire period of record 1971 through the current year.

Secondary reasons for these appendices are related to Watermaster's interest in making the report more useful to users that rely on it for basic data necessary for water resource related studies and analyses. All the data in the appendices are in PDF format and may be readily copied or converted to other formats electronically. Adobe Acrobat 8.0 and later have the capability to convert PDF files into Excel files. Please see the specific directions to perform this conversion in the User's Manual for the version of Adobe Acrobat you are using.

In the past, most of the more than forty years of data could only be acquired by accessing eight individual annual reports; each containing a five year block of data. Therefore, all pertinent historic data used to determine compliance with the provisions of the Judgment is available in Appendix A. Appendix A includes summary report Table Nos. 2 through 17C in sequential order. The PDFs for Appendix A contain discernible individual files for each of the tables contained therein.

92																		
93									ADJUSTED RIGHT OF CITY OF RIVERSIDE									
94									TO EXTRACT FROM THE SAN BERNARDINO BASIN AREA									
95									FOR USE IN EACH SERVICE AREA									
96									(including those rights acquired as successor to the Riverside Water Company and Gage Canal Company)									
97																		
98									1 Safe Yield Adjusted Right became effective on January 1, 1972; Base Right for Calendar Year 1971 is as shown in Table B-1 of the									
99									Judgment.									
100									2 New Conservation Allocation takes effect in the first year shown and continues until further adjusted by Watermaster.									
101									Pursuant to Paragraph VI(b) of the Judgment, Watermaster has determined the City of Riverside New Conservation Allocation to									
102									be 1,719 acre-feet per year starting in 2013.									
103									The 2013 Paragraph VI(b)6 Agreement provides that Watermaster will periodically consider changing this number based on									
104									provisions of the Agreement.									
105									3 Adjusted Right equals Safe Yield Adjusted Right plus New Conservation Allocation.									
106									4 New Conservation Allocation may also be used in the San Bernardino Basin Area, or the Colton Basin Area and Riverside Basin									
107									Area in San Bernardino County.

94									AGUA MANSÁ WATER COMPANY AND MEEKS & DALEY WATER COMPANY									
95									TO EXTRACT FROM THE SAN BERNARDINO BASIN AREA									
96									FOR USE IN EACH SERVICE AREA									
97																		
98									<i>1 Safe Yield Adjusted Right became effective on January 1, 1972; Base Right for Calendar Year 1971 is as shown in Table B-1 of the</i>									
99									<i>Judgment.</i>									
100									<i>2 New Conservation Allocation takes effect in the first year shown and continues until further adjusted by Watermaster</i>									
101									<i>Pursuant to Paragraph VI(b) of the Judgment, Watermaster has determined the Agua Mansa Water Company and Meeks &amp; Daley</i>									
102									<i>Water Company New Conservation Allocation to be 258 acre-feet per year starting in 2013.</i>									
103									<i>The 2013 Paragraph VI(b)6 Agreement provides that Watermaster will periodically consider changing this number based on</i>									
104									<i>provisions of the Agreement.</i>									
105									<i>3 Adjusted Right equals Safe Yield Adjusted Right plus New Conservation Allocation.</i>									
106									<i>4 New Conservation Allocation may also be used in the San Bernardino Basin Area, or the Colton Basin Area and Riverside Basin</i>									
107									<i>Area in San Bernardino County.</i>

33	* Fontana Water Company delivers water extracted from San Bernardino Basin Area and Colton Basin Area as Fontana Union Water Company. The Fontana Water Company water service area is located largely within Chino Basin. However, portions of the Fontana Water Company service area are within Colton Basin Area. Records of the deliveries within the Colton Basin Area are not available to the Watermaster.																															
34																																
35																																
36	1 Water diverted from Mill Creek and delivered to Yucaipa Basin and water pumped through Central Feeder Project into Inland Feeder Project.																															
37

1 See Table 8 of Watermaster Report. (Data from Volume 6, Table A.)

2 Accumulated values include amounts accumulated prior to current 5-year period.

3 Actual Export minus Annual 1959-63 Average. (Parentheses indicate that Actual Export is less than Annual 1959-63 Average.)

4 New Export which was allowed under High Groundwater Mitigation agreements without replenishment obligation.

5 Total New Export minus Additional New Export.

6 Amount deducted under the December 22, 1981 agreements. (High Groundwater Mitigation)

7 Amount deducted under March 23, 1983 and April 18, 1983 agreements. (High Groundwater Mitigation)

8 Amount deducted under December 5, 1984 1st Amendment to December 22, 1981 agreements. (High Groundwater Mitigation)

9 Amount deducted under February 25, 1985 and August 21, 1985 agreements. (High Groundwater Mitigation)

10 Amount deducted under January 21, 1986 letter under December 22, 1981 agreements. (High Groundwater Mitigation)

11 Amount deducted under May 20, 1987 2nd Amendment to December 22, 1981 agreements. (High Groundwater Mitigation)

12 Amount deducted under January 20, 1988 3rd Amendment to December 22, 1981 agreements. (High Groundwater Mitigation)

13 Amount deducted under April 3, 1991 4th Amendment to December 22, 1981 agreements. (High Groundwater Mitigation)

14 Amount deducted under May 4, 1992 5th Amendment to December 22, 1981 agreements. (High Groundwater Mitigation)

15 Amount deducted under June 16, 1993 6th Amendment to December 22, 1981 agreements. (High Groundwater Mitigation)

16 Amount deducted under March 3, 1994 7th Amendment to December 22, 1981 agreements. (High Groundwater Mitigation)

17 Amount deducted under March 15, 1995 8th Amendment to December 22, 1981 agreements. (High Groundwater Mitigation)

18 Amount deducted under March 6, 1996 9th Amendment to December 22, 1981 agreements. (High Groundwater Mitigation)

19 Amount deducted under February 19, 1997 10th Amendment to December 22, 1981 agreements. (High Groundwater Mitigation)

20 Amount deducted under February 18, 1998 11th Amendment to December 22, 1981 agreements. (High Groundwater Mitigation)

21 Amount deducted under January 19, 1999 13th Amendment to December 22, 1981 agreements. (High Groundwater Mitigation)

22 Amount deducted under August 16, 2000 15th Amendment to December 22, 1981 agreements. (High Groundwater Mitigation)

23 Amount deducted under February 7, 2001 17th Amendment to December 22, 1981 agreements. (High Groundwater Mitigation)

24 Amount deducted under February 6, 2002 19th Amendment to December 22, 1981 agreements. (High Groundwater Mitigation)

25 Amount deducted under August 18, 2004 21st Amendment to December 22, 1981 agreements. (High Groundwater Mitigation)

55																															
56	1	Amount of new conservation water that is in addition to the amount included in the Plaintiffs Adjusted Right, that is provided for																													
57		in Judgment Paragraph VI(b)6 agreements.																													
58	2	Amount of Western's right to extract that is imported water assigned and transferred by Western to a Plaintiff pursuant to																													
59		Paragraph 5 of the 2004 Judgment Paragraph VI(b)6 agreement.																													
60	3	Total amount of new conservation and/or imported water extracted by Plaintiff.																													
61	4	Amount of right to extract imported water acquired from Western and transferred to Plaintiff pursuant to Paragraph 5																													
62		of the 2004 Judgment Paragraph VI(b)6 agreement. Amount equals imported water acquired by Plaintiff (see Footnote 2).																													
63	5	Amount of water transferred from Plaintiff to a Western imported water holding account equal to Plaintiffs unused water right																													
64		in any five year period (under extraction) provided the amount transferred, plus the remaining balance of any previous such transfers,																													
65		does not exceed the aggregate amount of imported water acquired by Plaintiff and the right to extract such amount transferred to Plaintiff																													
66		(see Footnotes 2 and 4) pursuant to the 2004 Judgment Paragraph VI(b)6 agreement. Such holding account transfers are pursuant to																													
67		Paragraph 11 of the 2013 Judgment Paragraph VI(b)6 agreement.																													
68	6	Accumulated Credits include amounts of credit accumulated prior to the current five year period.																													
69	7	Amount of new conservation water extracted by the Riverside Highland Water Company that is in addition to the new conservation water included																													
70		in the Adjusted Right. Such amount is included in Additional Deliveries in Table No. 3B-2.																													
71	8	Amount of imported water extracted by Riverside Highland Water Company that is transferred by Western to the Riverside Highland Water Company																													
72		(see Footnote 4) and previously transferred into the Western holding account (see Footnote 5). Such amount is included in Additional																													
73		Deliveries in Table No. 3B-2.																													
74	9	Accumulated Obligations include extraction related obligations accumulated for the current five year period and prior years.																													
75	10	Credit equals Total Obligation minus Total Credits for the calendar year.																													
76	11	New Conservation Net Accumulated (Credit) equals the sum of all annual amounts of New Conservation Additional Extractions (see Footnote 7)																													
77		minus the sum of all annual amounts of New Conservation Allocation (see Footnote 1), including such amounts accumulated prior to the																													
78		current five year period. Such credit amount is the remaining balance in the Riverside Highland Water Company new conservation water account.																													
79	12	Imported Water Net Accumulated (Credit) equals the sum of all annual amounts of Imported Water Additional Extractions (see Footnote 8)																													
80		minus the sum of all annual amounts of Imported Water Transfer From Western (see Footnote 5) minus Imported Water Transfer To Holding																													
81		(see Footnote 5), including such amounts accumulated prior to the current five year period. Such credit amount is the remaining balance of water																													
82		in the Western imported water holding account that is available for extraction by Riverside Highland Water Company.																													
83	13	Total Net Accumulated (Credit) is the sum of the new conservation credit remaining balance and the imported water credit remaining balance.																													
84

56	1	Amount of new conservation water that is in addition to the amount included in the Plaintiffs Adjusted Right, that is provided for																												
57		in Judgment Paragraph VI(b)6 agreements.																												
58	2	Amount of Western's right to extract that is imported water assigned and transferred by Western to a Plaintiff pursuant to																												
59		Paragraph 5 of the 2004 Judgment Paragraph VI(b)6 agreement.																												
60	3	Total amount of new conservation and/or imported water extracted by Plaintiff.																												
61	4	Amount of right to extract imported water acquired from Western and transferred to Plaintiff pursuant to Paragraph 5																												
62		of the 2004 Judgment Paragraph VI(b)6 agreement. Amount equals imported water acquired by Plaintiff (see Footnote 2).																												
63	5	Amount of water transferred from Plaintiff to a Western imported water holding account equal to Plaintiffs unused water right																												
64		in any five year period (under extraction) provided the amount transferred, plus the remaining balance of any previous such transfers,																												
65		does not exceed the aggregate amount of imported water acquired by Plaintiff and the right to extract such amount transferred to Plaintiff																												
66		(see Footnotes 2 and 4) pursuant to the 2004 Judgment Paragraph VI(b)6 agreement. Such holding account transfers are pursuant to																												
67		Paragraph 11 of the 2013 Judgment Paragraph VI(b)6 agreement.																												
68	6	Accumulated Credits include amounts of credit accumulated prior to the current five year period.																												
69	7	Amount of new conservation water extracted by The Regents of the University of California that is in addition to the new conservation water																												
70		included in the Adjusted Right. Such amount is included in Additional Deliveries in Table No. 3D-2.																												
71	8	Amount of imported water extracted by The Regents of the University of California that is transferred by Western to The Regents of the																												
72		University of California (see Footnote 4) and previously transferred into the Western holding account (see Footnote 5). Such amount is																												
73		included in Additional Deliveries in Table No. 3D-2.																												
74	9	Accumulated Obligations include extraction related obligations accumulated for the current five year period and prior years.																												
75	10	Credit equals Total Obligation minus Total Credits for the calendar year.																												
76	11	New Conservation Net Accumulated (Credit) equals the sum of all annual amounts of New Conservation Additional Extractions (see Footnote 7)																												
77		minus the sum of all annual amounts of New Conservation Allocation (see Footnote 1), including such amounts accumulated prior to the																												
78		current five year period. Such credit amount is the remaining balance in the The Regents of the University of California																												
79		new conservation water account.																												
80	12	Imported Water Net Accumulated (Credit) equals the sum of all annual amounts of Imported Water Additional Extractions (see Footnote 8)																												
81		minus the sum of all annual amounts of Imported Water Transfer From Western (see Footnote 4) minus Imported Water Transfer To Holding Account																												
82		(see Footnote 5), including such amounts accumulated prior to the current five year period. Such credit amount is the remaining balance of water																												
83		in the Western imported water holding account that is available for extraction by The Regents of the University of California.																												
84	13	Total Net Accumulated (Credit) is the sum of the new conservation credit remaining balance and the imported water credit remaining balance.

36																															
37		1 Pursuant to the 2013 Agreement Regarding Additional Extractions of New Conservation Water From the San Bernardino Basin Area (Basin) (2013 Agreement), any amount of replenishment in the Basin resulting from operation of Seven Oaks Dam and related diversion and spreading facilities that, in the absence of such operation, would have been replenished in the Riverside Basin, shall be included in a Riverside Basin Mitigation Account. Such water is referred to herein as Mitigation Water.																													
38		2 Equal annual average amounts of Mitigation Water determined on the basis of a long term forecast of Seven Oaks related conservation at the Santa Ana River Spreading Grounds. Pursuant to the 2013 Agreement, such forecasts are subject to periodic change and hence the otherwise equal annual amounts may change periodically.																													
39		3 Specific amounts of Mitigation Water resulting from a determination of prior years (1998-2012) new conservation and any determination of new conservation resulting from conservation through direct use, recharge in the Basin in areas other than the Santa Ana River Spreading Grounds and/or export from the Basin and subsequent return for direct use or recharge.																													
40		4 Long Term Forecast Annual Average Amounts plus Specific Year Amounts.																													
41		5 Accumulated amount of Mitigation Account Additions includes amounts accumulated prior to the current 5-year period.																													
42		6 Pursuant to the 2013 Agreement, the City of Riverside may be required to extract San Bernardino Basin Area water that is included in the Mitigation Account and reduce extractions in its Flume Tract wells in the Riverside Basin by the same amount. Similarly, San Bernardino Valley may choose to extract water that is included in the Mitigation Account and deliver it for recharge in the Riverside Basin.																													
43		7 Amounts of Mitigation Water extracted by City of Riverside pursuant to the 2013 Agreement.																													
44		8 Amounts of Mitigation Water extracted by any producer other than Plaintiffs for delivery and recharge in the Riverside Basin.																													
45		9 Extractions by City of Riverside plus Extractions by Other Than Plaintiffs.																													
46		10 Accumulated amount of Mitigation Account Extractions includes amounts accumulated prior to the current 5-year period.																													
47		11 The amount of Mitigation Water Additions to the Mitigation Account minus the amount of Mitigation Water Extractions from the Mitigation Account by City of Riverside and by Other Than Plaintiffs in San Bernardino Valley.																													
48		12 Based on calculations by GEOSCIENCE/SAIC in an August 1, 2013 Technical Memorandum to Western and San Bernardino Valley, Watermaster determined that 483 acre-feet/year of Mitigation Water should be included in the Riverside Basin Mitigation Account based on the current maximum spreading grounds diversion rate of 195 cfs. Inclusion of such annual average amount of Mitigation Water continues annually until another long term forecast results in a change.																													
49		13 Based on calculations by GEOSCIENCE/SAIC in an August 1, 2013 Technical Memorandum to Western and San Bernardino Valley, Watermaster determined that during prior years 1998-2012, 2,713 acre-feet of Mitigation Water should be included in the Riverside Basin Mitigation Account.

APPENDIX B

INTRODUCTION

TABLES FROM VOLUME 1 AND VOLUME 7 OF THE ANNUAL REPORT OF  
THE WESTERN-SAN BERNARDINO WATERMASTER

## INTRODUCTION

The Annual Report of the Western-San Bernardino Watermaster for calendar year 2012 dated September 6, 2013 included modification of most of the tables in the summary report. Further modifications were made in preparation of the April 1, 2014 Annual Report. Many of the modifications resulted in changes in logic as well as the specific data commencing in calendar year 1971 and continuing through the current calendar year.

The Judgment requires the Watermaster to report compliance based on calculations for the current year and the five year period ending with the current year. As a result, some tables only show data for the last five years. A few show data for all years commencing in 1971.

Since many of the modifications changed calculations all the way back to 1971 and some tables in the report only show the last five years, these appendices have been developed primarily to show all the revised historic calculations in any table that has been either modified or is affected by modification of another table. For any such table included in these appendices, the data is shown for the entire period of record 1971 through the current year.

Secondary reasons for these appendices are related to Watermaster's interest in making the report more useful to users that rely on it for basic data necessary for water resource related studies and analyses. All the data in the appendices are in PDF format and may be readily copied or converted to other formats electronically. Adobe Acrobat 8.0 and later have the capability to convert PDF files into Excel files. Please see the specific directions to perform this conversion in the User's Manual for the version of Adobe Acrobat you are using.

Appendix B includes tables with basic source data commencing in 1971 that are affected by the modifications made in 2013 and 2014. These tables are in Report of Watermaster Volume 1 and Volume 7.

Volume 1 was modified to more accurately account for the high groundwater mitigation program and the Big Bear Lake in-lieu exchange. Table No. 8, including data for all years commencing in 1971, is included in Appendix B.

Volume 7 was modified to comply with provision of the Judgment related to export from the San Bernardino Basin Area by users in San Bernardino County and to preserve the hydrologic integrity of the Basin. Numerous tables from Volume 7 have been added and are also included in Appendix B.

Column explanation:

- (2) Company records. Amount includes production of Wells Rec. Nos. 3600379, 3600380 & 3601005. Starting in 2003, using Chino Basin Watermaster Annual Report, Appendix J
- (3) So. Calif. Water Co. Well Rec. No. 3600379 purchased by W.S.B.C.W.D. in 1970. Has been destroyed
- (4) So. Calif. Water Co. Well Rec. No. 3600380 purchased by W.S.B.C.W.D. in 1970. Has been destroyed
- (5) Former Citizens Land & Water Co. merged in 1962 to form W.S.B.C.W.D. Presently a monitoring well
- (6) Column (3) + (4) + (5) + (5a) + (5b).
- (7) Column (2) minus (6). Deliveries in Chino Basin from production in San Bernardino Basin and Colton Basin Area.

\* West San Bernardino County Water District (WSBCWD) now West Valley Water District.

Column explanation:

- (2) Verified extractions, Volume 1 Report of Watermaster. Excludes Lytle Creek Diversion Recordation No. 3601718. Includes only those wells that were owned and operated by City of Rialto in any year. For the years 1959 through 1963 includes well Recordation Nos. 3601263 and 3602080. For subsequent years, includes wells that City of Rialto acquired in the year acquired and following years.
- (3) Metered inflow to City of Rialto Filter Plant City of Rialto Records. Includes water delivered under stock entitlement City of Rialto owns in West San Bernardino County Water District and purchases from Fontana Union Water Co. (Rialto Filter Plant 3601718)
- (4) Verified extractions, Volume 2, Report of Watermaster. Includes production of Wells Recordation Nos. 3602269 & 3602271 after acquisition by City of Rialto.
- (5) City of Rialto Records of Purchases. Purchases from SBVMWD Baseline Feeder commencing 1990.
- (6) Sum Columns (2) + (3) + (4) + (5).
- (7) Well Recordation No. 3602270 acquired by City of Rialto in 1966 and a well constructed by City of Rialto (3603175 & 3603537)
- (8) Sum Columns (6) + (7).
- (9) Metered deliveries in Chino Basin from City of Rialto Billing Records beginning 1971. Base period years revised during 1973 verification to reflect 18% average distribution of metered deliveries by City of Rialto records for years 1971 through 1974.
- (10) Same as Column (7).
- (11) Difference Column (9) minus Column (10).
- (12) Assumed for Base Period. 1971 to date estimated weighted average return flow percentage based on: 1) metered agricultural and park deliveries with no return flow, 2) metered residential deliveries at 40 percent return flow, and 3) metered industrial deliveries (Phototron Company) at 90 percent return flow. In May 2009 a detailed study was completed which is described in text on previous page.
- (13) Product Column (11) times Column (12).
- (14) Difference Column (11) minus Column (13) net export of water produced in San Bernardino & Colton Basin Areas to Chino Basin.

Note:

Table No. 3 revised during the 1973 verification.  
 In May 2009 a detail calculation of water delivery and return was completed using data from Rialto's water meter books by Steve Mains
