The California Native Landscape: Threats and Solutions Explored

Greg Rubin, California's Own Native Landscape Design, Inc., will share the details of his landscaping methodology and how the power of native ecology is harnessed in creating stable, beautiful landscapes that are easy to maintain and require minimal input. He will also discuss Argentine ants and strategies to deal with them.

These **FREE** workshops are a partnership between the University of California Cooperative Extension Master Gardener Program and Western Municipal Water District.

Greg will be happy to sign copies of his published books – bring them with you!
