**free workshops!**

## Natives: Calendar of Care

**Saturday, November 10**  
**10 – 11 a.m.**

Presented by **Su Kraus**, Moosa Creek Nursery. Gain valuable insight on planting, growing, and nurturing California native plants based on seasonal needs. Native plants thrive with little attention, low water use, and virtually no fertilization—but when and how much to water or trim varies throughout the year. You are going to be delighted to learn that you can have a colorful, enjoyable, and efficient garden while reducing your gardening chores.

### *Save the Date:*

**January 12**

Caring for Trees in  
Drought Conditions

**February 9**

Permaculture

**March 9**

Tomatoes, tomatoes  
and more tomatoes!
